

Optical Fiber Termination Box (OTB) 2 port

Application and Properties:

The termination point is an end user product that implements the FTTH solution. It is applicable to the home or work area to complete the optical fiber access and port output, while protecting the optical fiber core. Quality of the product is tested according to IEC Standards.

Application:

- FTTH project & FTTH
- Testing instruments
- Optical fiber communication networks
- ODN Networks
- Optical Signal Distribution

- Other Details

- Material: PC+ABS, is high quality engineering plastic with good strength
- Easy installation
- The fusion and termination are completely separated
- It is made of non-flammable materials
- Lifetime Warranty
- Compliance with ROHS, REACH, SVHC

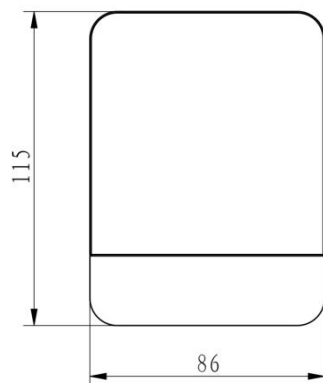

- Technical Specification

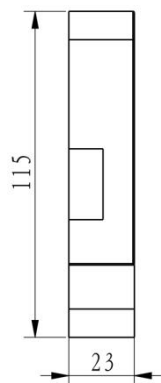

Product name	OTB Box 2 port adaptor
Capacity	2Cores
Material	PC+ABS
Dimension	115*86*23 mm
Cable Entry	1-Ø8mm
Splitter Capacity Blockless	Micro PLC Splitter : 1*2
Type of adapters	SC /LC
Color	White
Installation	Wall mounting
ROHS	Compliance
